

# Selecting Your In-Center Start

- Step 1 - Select your Center
- Step 2 - Plan your Start Date
- Step 3 - Choose your Live or Live Online class
- Step 4 - Apply to Kaplan Medical
- Step 5 - Start your Journey

- Students should spend at least a few weeks reviewing foundational material before they take a Live or Live Online Lecture.
- On average, International Medical Graduates require;
  - + 6-12 months of preparation for Step 1
  - + 4-10 months of preparation for Step 2 CK
  - + 1-2 months of preparation for Step 2 CS
- Students who come on an F-1 visa are allowed to enter the U.S. up to 30 days before the start date listed on their I-20. Kaplan strongly recommends students arrive before their start date and use that time to finalize housing, open a bank account and otherwise get settled in the U.S. so that they can be fully devoted to their studies on the first day.
- F-1 students should allow enough time to enroll in their course, provide the necessary documents, have their visa appointment, and arrive in the U.S. F-1 students should aim to have their visa appointment at least 2-3 months before their scheduled start date.
- Limited course options and important location information for Miami. Speak to an advisor for full details.
